

Explain why Boston University is a good fit for you

Boston University is one of the leading educational institutions in the United States of America. It is a very impressive fact as it makes you think about all the hard work people have been doing for centuries to make this university what it is at the moment.

My grandfather studied at Boston University. My father studied at Boston University. I want to study at Boston University too. Even though we often joke about it becoming a family tradition, it is so much more than that. I am very lucky to witness my grandpa and my dad apply all useful knowledge and experience they have gathered at Boston University in their everyday lives. They are both very successful at what they do. Yet, what is even more important, they are happy in terms of careers they have chosen.

Once I asked my grandpa what his most significant decision in life was. He replied that getting an education was the decision he would always consider to be the smartest thing he had ever done. I was so impressed with his answer to my question. The thing is that nowadays a lot of people my age are very reluctant about going to college. Some of them even suggest that college education has become pointless as it is easier and faster to acquire the skills you need online.

I totally disagree. I believe that college education is very powerful. Not because you will have a diploma. The reason why I think that is because you will be able to learn from some of the greatest minds of your generation: your professors, students, guest lecturers...The list is huge! What is more, a whole new world of opportunities opens for you when you become a student at Boston University. You are able to meet so many talented people with whom you will be working on finding solutions to tons of challenging problems, not to mention the sense of community and new friends which you will make while studying at this educational institution.

Boston University is one of the best colleges in the country. I am sure of it, and I want to become a part of this community to get the best education I can and fully realize my potential. I am ready to work hard. I am ready to sacrifice my free time to get a degree in the field I am so passionate about.
